

SUZUKI Orff Instruments

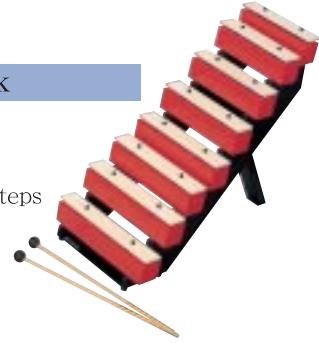

Whether used in pre-school or elementary school, SUZUKI sound blocks enhance the learning experience of your students. Electronically tuned, these fine instruments feature high quality aluminum tone bars mounted on unbreakable plastic resonator chambers. All sound blocks are removable from their stand or case. Each set has unique features described below.

with wooden resonator chambers  
w/2 Pairs of Mallets & Wooden Case

SUZUKI Orff Instruments

Add a beautiful new dimension to your Orff ensemble with our contra bass xylophone and metallophone bars. SBCX-70 & SBCX-80 are pitched one full octave below the bass xylophone, each oversized bar is carefully tuned for maximum low frequency response. Mounted on its own resonator tone chamber, each bar comes individually boxed.

SUZUKI Orff Instruments

SUZUKI glockenspiels add sparkle and excitement to every Orff concert. Each aluminum or steel bar is meticulously tuned for perfect pitch and harmonics. Each SUZUKI diatonic glockenspiel (AG-13 & SG-13) comes complete with inside note name labeling, bottom positioned pins, 1Bb and 2F# bars and 2 pairs of appropriate double headed mallets.
