

## EDUCATIONAL BENEFITS

High acclaimed throughout the world, the Melodion has come to be looked upon as one of the single most advanced learning systems ever devised. No other musical instrument combines so many diverse playing techniques as does the Melodion, such as keyboard fingering, breathing techniques, tonguing as well as solo and ensemble performance in a truly portable instrument. Home practice now becomes practical and enjoyable.

## TIMELESS ADVANTAGES

Visual perception of musical notation is a key to any further understanding of the various music forms. Your students will benefit in this regard by being able to recognize music intervals and then more complex chord structures readily. When the initial instructions are learned, the Melodion takes on a new dimension as it is universally adaptable to your own multi-voiced choral, band or orchestra arrangements.

## A HISTORY OF SUCCESS

The Suzuki Melodions are voiced in 3 distinct ranges, just like the recorder. Ensemble, soprano, alto and bass voices combine to produce full, vibrant sounds, the Melodion makes keyboard instruction in the classroom practical for the first time. As ideal preparation for choral, band or orchestra programs, the Melodion serves to stimulate your students interest in continuing their musical education by fully exposing them to many different musical instrument variations.

M E L O D I O N S

Not only a Melodion, but a new type of musical instrument.  
The new PRO-37V2 Wind Keyboard

Great sound, style and playability!

The PRO-37V2 features new tapered reeds made of a special alloy material, giving you superb sound with quick response. The extremely high craftsmanship of these new reeds are designed to sensitively respond to your playing. It is easier than ever before to play with tremolo, vibrato, flutter, etc., with a high degree of accuracy and technique. You can also produce a wide variety of different tones, from soft sounds like woodwinds to the powerful sounds of brass instruments.

The band fits to your hand!

The specially designed handgrip allows you to hold the instrument comfortably so that you can concentrate on the quality of your performance.

High quality design!

The beautiful colour blend will fit every occasion. The gold trim across the bottom of the keyboard adds just the right touch of elegance to the wood-effect sides.
