THEY'RE SO EASY TO PLAY!

Specially designed, highly polished wind chambers make PRECORDER a breeze to play. If your students have ever struggled to get the upper or lower registers to play, forget it! It's never a concern on this precision crafted instrument. Computer controlled manufacturing process gives PRECORDER perfect intonation, and it's virtually indestructable.

LITTLE FINGERS HAVE LITTLE PROBLEM.

Even the smallest fingers can easily cover PRECORDER's tone holes because, unlike other pre-recorder style instruments, PRECORDER has raised tone holes. A small lip around each hole makes it easier for each finger to seat properly.

FULL CHROMATIC SCALE.

Even if you don't start out teaching the sharps and flats, it's nice to know that PRECORDER has full chromatic fingering to extend its playing range.
